<u>Performance Notes:</u>		
<p>Nice opening night guys! Good cover for the gun not going off guys. Good covers elsewhere without scene partners. You never know what an audience will do or laugh at, so remember to hold for big laughs and push through the awkward ones. Make sure those of you with outstanding Incident Reports get them to me by end of day Sunday including your personal statement. If you are seeking further medical attention, wait to turn it in until you are done.</p>		
<u>Technical Notes:</u>		
<p>Transitions looked very smooth tonight team, nice work. SHOP: The trim on the stage right, front corner of the upper platform is coming off because of how and where Romeo gets up to the balcony. Please look at it Monday. Also, when the stairs were repainted black, the glow tape was painted over. If there is more somewhere that could be used we would like some for next week. The white tape is working alright now, but is not ideal. Thank you. COSTUMES: Run crew has their notes for quick changes. Thank you. LIGHTS: We had a problem with cue 10 tonight not playing possibly. It was checked post show and the sequence in and out of it ran fine. If we have problems again tonight, we will ask you to take a look, thank you.</p>
